## Study on Compensation and Benefits in the Public Sector, FY 2015

The review of the Public Sector Compensation and Benefits is mandated by Joint Resolution No. 4 (June 17,2009), which states that "a periodic review of the government's Compensation and Position Classification System shall be conducted every three (3) years" (i.e., 3 years after 2012, or 2015)
To determine:

- The competitiveness of government pay in relation to the private sector; and,
- The compensation strategy to bring government pay closer to market rates.

- To recognize differences in duties and responsibilities, there shall be no salary overlaps.
- The link between pay and performance shall be strengthened, especially for those in the higher salary grades.
- The structure of the adjustment should temper the cost of benefits (i.e. GSIS premiums and PhilHealth contributions) and allow for higher take home pay, especially for those in the lower salary grades
