PERFORMANCE INFORMATION

KEY STRATEGIES

On Investigation:

1. The NBI plans to closely monitor cases assigned to agents through the implementation of the Case Information and Management System (CIMS). The system will track all cases file with the NBI and the Director, its Directorial Staff and the Chief of the Division can look at the progress of the case investigation on a real time basis. The investigation agent on the other hand can update its case investigation log by going online and update the CIMS even at the crime scene.
2. The approval of the Rationalization Plan of NBI will guide us in the staffing pattern and will give direction as to what kind of cases should the NBI will handle.
3. The management is also looking on the modernizing and organizing the NBI through legislation, the Law that created the NBI was enacted in 1947.

On the Issuance of the NBI Clearance:

4. The NBI envisioned that by 2015 the NBI will be running its own system. In order to increase its issuance the NBI plans to implement the electronic payment and online application to decongest the queuing at the NBI offices. It also plans to coordinate with the local government to bring the clearance system closer to the people.

On the Forensic Investigation:

5. The NBI plans to make the Forensic Crime Laboratory in Cebu be fully operational. To date the NBI is waiting for the completion of the new building being donated by the local government of Cebu to NBI. The forensic laboratory in the Visayas will greatly benefit the public people in the south. It will also increase the cases being examined by NBI.
