**No. 32**  
**May 16, 2011**

**F O R : All Heads of Government-Owned and/or Controlled Corporations (GOCCs), Including Government Financial Institutions (GFIs); and all Others Concerned**

**SUBJECT : REITERATION OF POLICY GUIDELINES IN THE PREPARATION OF THE FY 2012 BUDGET PROPOSALS**

---

- 1.0 In line with the principle of transparency and accountability in government budgeting and in order to gauge past and current performance of the GOCCs/GFIs to serve as a benchmark for the budget year's recommendation, the pertinent guidelines under Corporate Budget Memorandum (CBM) No. 31 dated December 30, 2010 are hereby reiterated.
- 2.0 GOCC/GFI budget proposals shall present the annual physical targets and the corresponding financial requirements of their key programs/projects and sub-programs/projects. Using the Locally Funded Projects (LFPs) Profile and Foreign Assisted Projects (FAPs) Profile, information requiring the geographical distribution i.e., by region/province and component cost should be properly disclosed. Factors which tend to influence/affect target outputs should be properly identified. A relevant example is the case of National Irrigation Administration where potential areas for irrigation, service areas generated, rehabilitated and restored and underdeveloped service areas, among others should be shown by geographical location.
  - 2.1 In cases of major programs implemented by GOCCs/GFIs, the same data requirements as that for LFPs/FAPs should apply.
  - 2.2 For greater data appreciation, visual information such as topographic maps and location plans are required.
- 3.0 In case of an inter-agency program/project, a **detailed implementation plan** reflecting the participation/contribution of the individual department/agency/GOCC/GFI involved in the said program/project shall be submitted by the lead department/agency/GOCC/GFI.
  - 3.1 Prior to the presentation to the President of the final implementation plan of an inter-agency program/project by the departments/agencies/GOCCs/GFIs concerned, separate Technical Budget Hearings (TBHs) shall be conducted by DBM to evaluate the submitted work plan.

3.2 This will ensure that requirements and implementation schedules are synchronized and complementary with each other. Thus, duplication, overlaps and/or gaps among implementing agencies are avoided.

4.0 Submission of the breakdown of the following specific objects of expenditure as well as the assumptions used by the agency in coming up with their proposals on the same is emphasized:

4.1 Personal Services

4.1.1 The Plantilla of Personnel and Salary Adjustment (PPSA).

4.1.2 DBM Form No. 703-C-Staffing Summary & Details of Salaries & Other Compensation of Permanent, Contractual and Casual Positions.
