CORPORATE BUDGET MEMORANDUM

No. 47

F O R : All Heads of Government-Owned or Controlled Corporations (GOCCs), including Government Financial Institutions (GFIs) and all Others Concerned

SUBJECT : **CORPORATE BUDGET CALL FOR FY 2026**

DATE : January 23, 2025

1.0 BACKGROUND AND RATIONALE

- 1.1 The FY 2026 budget is geared towards optimizing the budgetary support to GOCCs in response to the call to reform the public corporate sector in light of the tight fiscal resources of the government.
- 1.2 Executive Order (EO) No. 518 prescribes that the budgetary requests of GOCCs shall observe the format and timetable as determined by the DBM, consistent with the national government policy for the formulation of the national budget, representing the totality of government revenue, expenditure, and debt.
- 1.3 Towards this end, the FY 2026 budgetary support to GOCCs/GFIs shall be aligned with the national budgeting and public financial management systems, and consistent with budget and compensation laws, rules, and regulations, expounded in the sections below.

2.0 EXPENDITURE MANAGEMENT FRAMEWORK

- 2.1 The FY 2026 budget proposal of GOCCs/GFIs should be consistent with the policies enumerated below:
 - 2.1.1 The FY 2026 budget is poised to set hard budget constraints to GOCCs/GFIs by considering the actual output and the resources made available to produce the required level of output.

2.1.2 With clear macro-economic objectives set in place by the FY 2022-2028 Medium-Term Fiscal Framework (MTFF), the FY 2026 budget shall serve as a blueprint by which it can achieve the **8-point Socioeconomic Agenda** as integrated in the **Philippine Development Plan (2023-2028)**.

2.1.2.1 Programs which support the achievement of the targets¹ set in the Administration's MTFF are given priority. The MTFF² is a comprehensive fiscal strategy which seeks to attain short-term macro-fiscal stability while steering the economy back to its high-growth trajectory and promoting medium-term fiscal sustainability. It aims to consolidate the resources of the National Government in order to optimize its use and gain its maximum benefit and multiplier effects for the economy.

2.1.3 The FY 2026 Budget will align with the National Government's commitment to the 2030 Agenda for Sustainable Development, which supports the objectives of the Philippine Development Plan 2023-2028 and Ambisyon Natin 2040. With the 2030 Agenda deadline approaching, it is crucial to accelerate progress and address negative trends to achieve the global goals of economic, social, and environmental sustainability.

2.1.4 Sustained commitment to infrastructure development through the Build-Better-More Program, with emphasis on NEDA Board-approved list of Infrastructure Flagship Projects. However, increased infrastructure spending will not, in any way, detract from the full support provided to the poorest, lagging, climate change and disaster risk vulnerable areas nor the social sector, and basic public services.

2.1.5 Provision of funds for capacity-building programs for LGUs, including competency-enhancing interventions in the areas of sector-specific technical competency requirements, resource generation, public financial management, leadership and management, and development planning, among others, to enable them to assume the devolved functions and services.

2.1.6 Strengthening the vertical and horizontal linkages, over the medium term, between and among the GOCCs/GFIs, the

¹ Pertains to the recalibration of the growth and fiscal targets as approved by the DBCC during its 188th Meeting on June 27, 2024 and Ad Referendum approval dated July 19, 2024. [subject to updating]

² Adopted through Concurrent Resolution No. 4 - CONCURRENT RESOLUTION SUPPORTING THE 2022-2028 MEDIUM-TERM FISCAL FRAMEWORK OF THE NATIONAL GOVERNMENT adopted by the Senate of the Philippines on September 12, 2022 and adopted by the House of Representatives as an amendment to House Concurrent Resolution No. 2 on September 14, 2022.

Department to which they are attached, subsidiaries, other government instrumentalities, and equivalent bodies, by:

- 2.1.6.1 Ensuring that policies and programs, such as GOCC/GFI budgets and operations, as well as their production, financial, and other corporate targets, and disposition of profits, are consistent with sectoral policies and programs;
 - 2.1.6.2 Ensuring that there is no duplication in the delivery of public goods and services through a holistic assessment of priorities, targets, and accomplishments; and
 - 2.1.6.3 Enabling the provision of immediate support or aid by any of them to the national government in the event of resource constraints.
- 2.1.7 The Heads of GOCC/GFI with regional presence³ shall be held accountable for ensuring the GOCC/GFI's compliance with applicable policies, rules, and regulations of the Regional Development Council review process.
- 2.2 Fully aware, however, of the impact of the country's debt burden and the competing demands of government agencies, the allocation of the FY 2026 budget will be optimized. As part of the evaluation process, the government will consider how the GOCCs/GFIs utilized their previous year's budget and the implementation progress of their mandated programs and projects to ensure that only those proposals which are implementation-ready are included in the budget. This means that the GOCCs/GFIs are expected to provide the relevant supporting documents, e.g., concrete program plans and designs that outline key procurement and implementation milestones, including specific project locations and beneficiaries, among others.
- 2.3 Regardless of the uses, the NG subsidy support, except those that are funded through Special Account in the General Fund (SAGF), shall be reflected in the National Expenditure Program (NEP) under MOOE while NG equity contribution shall be reflected under CO in the NEP.
- 2.4 The government will continue to adopt the following administrative reforms for greater budget transparency, openness, accountability and reliability:
- 2.4.1 2-Tier Budgeting Approach (2TBA);

³ GOCC/GFIs with regional offices and to which subsidy/equity may be directly attributed to such regional offices (i.e., NDA, NIA, PCA, etc)

- 2.4.2 Unified Accounts Code Structure (UACS);
 - 2.4.3 Program-based budgeting structure through the Program Expenditure Classification (PREXC) approach;
 - 2.4.4 Disaggregation of lump-sum amounts within the agency specific budgets to reflect the program/activity/project (P/A/P), implementing agencies and/or regional or local levels;
 - 2.4.5 Cash Budgeting System (CBS) pursuant to EO No. 91, s. 2019 which emphasizes funding of implementation-ready P/A/Ps which can be completed within the fiscal year, or until the allowable implementation period as provided in the applicable general and special provisions of the GAA, if any;
 - 2.4.6 A well-functioning, results-based and credible monitoring and evaluation system that will provide evidence-based information;
 - 2.4.7 Program Convergence Budgeting (PCB) to link, harmonize, and synchronize the timing of critical program interventions; and
 - 2.4.8 Open Government Partnership (OGP) pursuant to EO No. 31, s. 2023 as a platform to promote transparency, strengthen social accountability and empower citizens.
- 2.5 Total Resource Budgeting
- 2.5.1 GOCCs/GFIs shall fully reflect in their budget proposals all sources of funds, such as corporate funds, borrowings, fund transfers from other agencies, and budgetary support from the national government.
 - 2.5.2 All funding requirements of the GOCCs/GFIs, including contingent liabilities, sizable liabilities from previous years' suppliers' contracts and other multi-year obligations or multi-year agency projects, must be identified in the budget submissions.
- 2.6 Financial independence of GOCCs/GFIs
- 2.5.1 GOCCs/GFIs shall observe fiscal responsibility in proposing budgetary support from the national government through the following:
 - 2.6.1.1 Implementing measures to enhance corporate revenue generation, cost recovery, and improve operational efficiency;

- 2.6.1.2 Initiating the study to streamline the organization, including privatization of certain GOCC operations and assets, subject to the recommendation of the Governance Commission for GOCCs (GCG), (for GOCCs covered by RA 10149) and the DBM (for GOCCs exempted under RA 10149); and,
- 2.6.1.3 Maximizing available resources through other means, such as external financing, and sale/lease of assets, among others.

2.7 Resource Optimization

GOCCs/GFIs are encouraged to maximize their budget by means of the following:

- 2.7.1 Ensuring that budget proposals are channeled to priority ongoing programs and projects for completion that will have an impact on economic growth and increase productivity;
- 2.7.2 Identifying/implementing programs/projects with the potential to generate revenues. In cases where revenues are already being generated for services rendered, measures such as the improvement of the quality of service delivery and reduction in the cost of production should be adopted to further increase revenues; and
- 2.7.3 Undertaking measures to ensure that the costs of services rendered/delivered are recovered.

2.8 Focused Resource Utilization

- 2.8.1 GOCCs/GFIs shall refrain from undertaking activities and programs that other national government agencies, LGUs or other government corporations are mandated by law to perform. Complementarity/convergence in the identification and implementation of the programs and projects among said agencies shall be observed to avoid duplication, maximize benefits, and promote greater efficiency in service delivery.

2.9 National Government Subsidy Graduation

- 2.9.1 The following parameters shall be taken into consideration for the possible scaling down or optimization of subsidies to GOCCs/GFIs:

- 2.9.1.1 The functional classification of GOCCs

- a. Those which are highly commercial, consistently generating income, and remitting dividends shall be given least priority in receiving NG subsidy.
- b. GOCCs with regulatory/developmental/social functions shall be given preference in budgetary support, subject to the endorsement of their parent or supervising department, the explicit provisions in applicable legislative acts, and the usual budgetary process.

2.9.1.2 The financial performance of GOCCs/GFIs for the past five (5) years. If, upon review, the GOCC has shown an increasing trend in income and corporate funds, the budgetary support shall be gradually reduced or shall be based only on the financing gap of the GOCC for the budget year.

2.9.1.3 GOCC's Utilization of Equity. A review will be done on the necessity of GOCCs with unpaid capitalization to determine whether these GOCCs have taken full advantage of the NG equity that has already been provided to them.

2.9.1.4 GOCCs that have remained heavily dependent on NG budgetary support for the past 10 years shall be endorsed to the GCG, in consultation with the DBM and DOF, for possible study on the conversion of these GOCCs into national government agencies.

3.0 **GOCC/GFI BUDGET LEVELS**

3.1 As a general rule, income and/or revenues collected by GOCCs/GFIs from all sources shall be used to cover their operating requirements. In case of any deficiency, the National Government may provide support through the following:

3.1.1 **Subsidy for Operations.** Amounts granted to GOCCs/GFIs to cover operational expenses that are not supported by corporate revenues or to cover corporate deficits and losses;

3.1.2 **Subsidy for Programs/Projects.** Amounts granted to GOCCs/GFIs for the implementation of developmental programs/projects, subject to prioritization and alignment with the Budget Priorities Framework;

3.1.3 **Equity.** The amount received by GOCCs/GFIs as payment of capital subscriptions. Generally, it is the capital investment of the

National Government in said corporations which forms part of their capitalization, provided that corporate equity investments shall be within the limit of the authorized capital stock of the requesting corporation (Section 21, EO 518);

3.1.4 **Shares from special laws.** Provision of support governed by special laws creating Special Account in the General Fund, i.e., Republic Act (RA) No. 9593 (The Tourism Act of 2009), RA No. 11524 (Coconut Farmers and Industry Trust Fund Act), RA No. 8424 (Tobacco Inspection Fees), RA No. 11371 (Murang Kuryente Act), among others; and

3.1.5 **Other forms of budgetary support.** This covers items that are not supported by corporate revenues or corporate deficits and losses, i.e., Tax Subsidy, Net Lending, Conversion of NG Advances into Subsidy/Equity which is subject to DOF endorsement/approval.

3.2 The total budget proposal of GOCCs/GFIs shall be based on the total cash requirements of: (a) ongoing P/A/Ps under Tier 1; and (b) new spending proposals or expansion of existing P/A/Ps under Tier 2.

3.3 The future cost of ongoing and existing policies shall be determined through the preparation of the Forward Estimates (FEs) for FYs 2026-2028.

Consistent with 2TBA, the discussion and deliberation on ongoing/existing P/A/Ps for FYs 2026-2028 shall be done separately from the consideration of new spending proposals *or* expansion of existing PAPs. The Tier 1, which refers to the first phase of the 2TBA shall consist of the estimated cash requirements for ongoing P/A/Ps and commitments at the same cost and quality. Meanwhile, the requirements for new/expanded proposals are taken up under Tier 2. The latter proposals shall be guided by the Budget Priorities Framework (BPF) which shall be covered by a separate issuance.

- 1.1 FEs refer to the three-year estimate of the future costs of ongoing policies and existing PAPs **considering any expansion/ reduction of the said PAPs.**
- 1.2 The FEs for FYs 2026-2028 shall be formulated by the DBM in consultation with the GOCCs/GFIs concerned.
- 1.3 The FEs shall consider the adjustments arising from changes in macro-economic parameters, namely, foreign exchange rate and inflation rate.
- 1.4 **Further**, the budgetary requirements in the FYs 2026-2028 FEs shall incorporate changes resulting from the GOCC's/GFI's FY 2024 Budget Utilization Rate (BUR) computed as current year's obligation (for subsidy and equity, as of December 31, 2024) over allotment on a per P/A/P BUR of the GOCC/GFI. Furthermore, estimates based on demand-driven parameters, e.g., population-based P/A/Ps shall all be subject to BUR.

The FYs 2026-2028 FEs shall thus be formulated as follows:

- a. The foreign exchange rate of **P56.50:\$1.00⁵** shall be used in determining the peso equivalent of dollar-denominated currencies. This rate shall be applied for FY 2026 until FY 2028.
- b. The inflation rate of **3.0 percent** shall only be used in formulating FYs 2026-2028 MOOE levels for operating expenses that are affected by changes in the prices of commodities.
- c. Thus, the FYs 2026-2028 budget levels for ongoing programs and/or projects shall be based on the following:

⁵ Approved by the Development Budget Coordination Committee (DBCC) on June 27, 2024. (Subject to updating based on latest DBCC approval)

- c.1 For ongoing programs/projects, the Tier 1 level shall be computed based on whichever is lower between the current level of budgetary support multiplied by the preceding year's BUR (pertaining to the program/projects) and the annual requirements submitted per program/project profile and/or CBIs.
 - c.2 For ongoing infrastructure projects, the level of budgetary support shall take into consideration the status of implementation of the project, i.e., actual accomplishment and fund utilization (*on a per project basis*). If it involves multi-year implementation, the budgetary support levels shall be limited to the amount per the approved CBI and Roadmap.
- 1.5 The targeted outputs and outcomes shall be consistent with the level supported by the cash-based budgetary requirements formulated for the pertinent FEs years.
- 1.6 GOCCs/GFIs shall be advised of their approved FYs 2026-2028 FEs **and shall be required to concur thereto.**
