

E-Government Master Plan for 2013-2016

An Overview

Denis F. Villorente

**Information and Communications Technology Office
(ICT Office)**

What is the EGMP?

- Provides a blueprint for the implementation of e-Government projects
- Provides e-Government builders and partners with the roadmap on how to achieve e-Government targets and milestones
- A living plan that builds on the past, recognizes present challenges, and develops a vision for the future

Legal Basis

Executive Order No. 47, s. 2011 Section 5.a

Prepare a medium-term development plan for ICT research and development and its linkages to the ICT industry, and a **medium-term e-governance infrastructure and information systems plan** in order to support improvements in the global competitiveness of our country's economy;

Rationale behind the EGMP

Transparent and Open

Collaborative and Integrated

**E-Government in
the Philippines**

Efficient Delivery of
Services

Innovative

Process behind the EGMP

Steering Committee and Working Group meetings

Basis and Goals of the EGMP

Contents of the EGMP

ICT Assessment
of Selected
Public Agencies

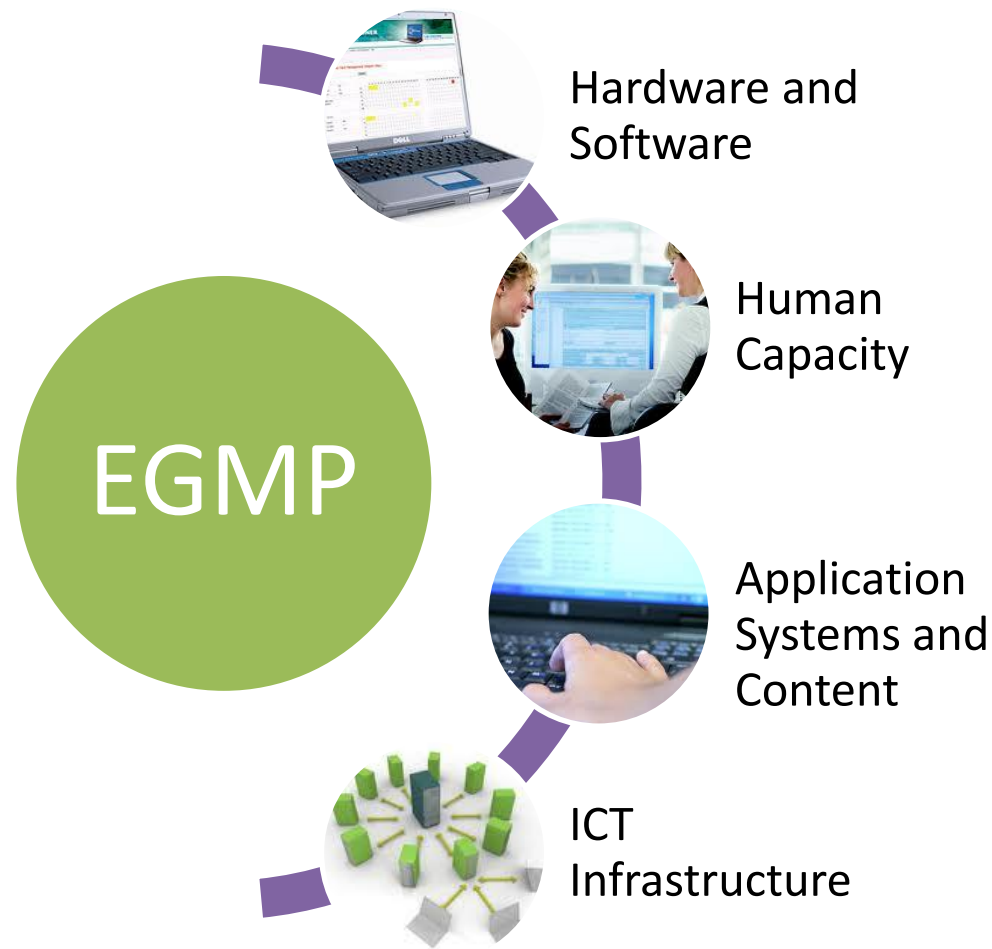

Building blocks of
e-Government

Future of E-
Government

Key Result Areas for the ICT Assessment

- **Pushing for Interoperability**
 - Common transaction systems (G2C) and back-end systems
 - Primarily in “silos”: lacks interface with other systems and organizations
 - Developed using different platforms
- **Pushing for Shared Services**
 - Issue of technology obsolescence: Challenge for limited resources
 - Full utilization remains a challenge
- **Need to Enhance ICT Human Resources**
