# **National Telecommunications Commission**

#### Legal Basis

- Act No. 3396 (December 5, 1927), Ship Radio Station Law, provided for the first radio regulatory office, known as Radio Construction and Maintenance Section (under the Telegraph Division of the Bureau of Posts), to enforce radio laws and regulations, particularly the installation of radio obligatory for Philippineregistered ships to protect life and property at sea.
- Act No. 3846 (November 11, 1931), Radio Control Law of the Philippines, created the Radio Control Division in the Bureau of Posts under the general supervision of the Secretary of Commerce and Communications.
- Executive Order No. 230 (November 1, 1939) formally organized the Department of National Defense (DND), transferring the Radio Control Division to it in view of the national defense and security aspects of the establishment and operation of radio stations in the country.
- Executive Order No. 94 (July 1, 1947) created the Department of Commerce and Industry, transferring to it (from the DND) the Radio Control Division on the rationale that radio regulation is a factor in the promotion of commerce and industry.
- Executive Order No. 392 (January 1, 1951) transferred the Radio Control Board to the Department of Public Works and Communications (DPWC) under which setup the Board supervised the Radio Control Division.
- **Republic Act No. 1476** (June 15, 1956) abolished the Radio Control Board, with the Radio Control Division remaining under the DPWC.
- Department Order No. 51 (August 23, 1962) changed the name of the Radio Control Division to Radio Control Office.
- Presidential Decree No. 1 (September 24, 1972), Integrated Reorganization Plan (IRP), retained the Radio Control Office (renamed Telecommunications Control Bureau on July 1, 1974) with functions relative to the enforcement of policies, rules and regulations on telecommunications, and whose head was an ex-oficio member of the IRP-created Board of Communications, the first quasi-judicial body with adjucatory powers on matters involving telecommunication services, attached to the Department of Public Works and Communications for administrative supervision.
- Executive Order No. 546 (July 23, 1979) abolished the Telecommunications Control Bureau and the Board of Communications, integrating it into a single entity, the National Telecommunications Commission (NTC), under the administrative jurisdiction of the Ministry (later Department) of Transportation and Communications which the EO created.
- Executive Order No. 269 (January 12, 2004) created the Commission on Information and Communications Technology (CICT), with the NTC as an attached agency.
- Executive Order No. 454 (August 16, 2005) transferred the NTC back to the Department of Transportation and Communications (DOTC).

#### Mandate

The National Telecommunications Commission (NTC) is primarily responsible for the regulation and quasijudicial functions relative to the supervision, adjudication, and control of the country's radio communications, telecommunications, and broadcast, including cable television (CATV) facilities and services.
